

05/31/2026:

TINKER BEAST AND THE PICKLE WARLORD

JET RESHAPES A SAVAGE
DREAM CREATURE, THEN REFUSES
A WARLORD BUILT ON WEAKER COPIES.

Sleep paralysis
opened the
Storyverse.

I arrived
alone.

Something
white was
waiting.

At first,
it only
watched me.

Then the
calm broke.

I caught it in
Lucid Light.

Inside the orb,
the violence
faded.

I thought
the orb had
changed it.

I was wrong.

So I changed
the creature
itself.

Calm became
intelligence.

Then the
dream shifted.

A warlord
marched in.

He said villainy
deserved
the world.

He wanted
me on his side.

I refused.

He was
not hard
to defeat.

But every
defeat made
another him.

Each clone
was weaker.

Then
weaker.

Then barely a
threat at all.

The warlord
had grown too
weak to fight.

So he sent
machines instead.

The Tinker Beast
understood the
problem.

I woke before
I learned his
plan.
