BLUE SKULL

LUCIDITY

STORYVERSE
THE LUCID LIGHT

Sleep paralysis
opened the door.

Alone, I imagined
becoming the Blue Skull.

The Storyverse
answered with a helmet.

A childhood documentary
returned to me.

Crystal skulls as
ancient computers.

I put one on and
heard the machines.

For a moment,
every circuit listened.

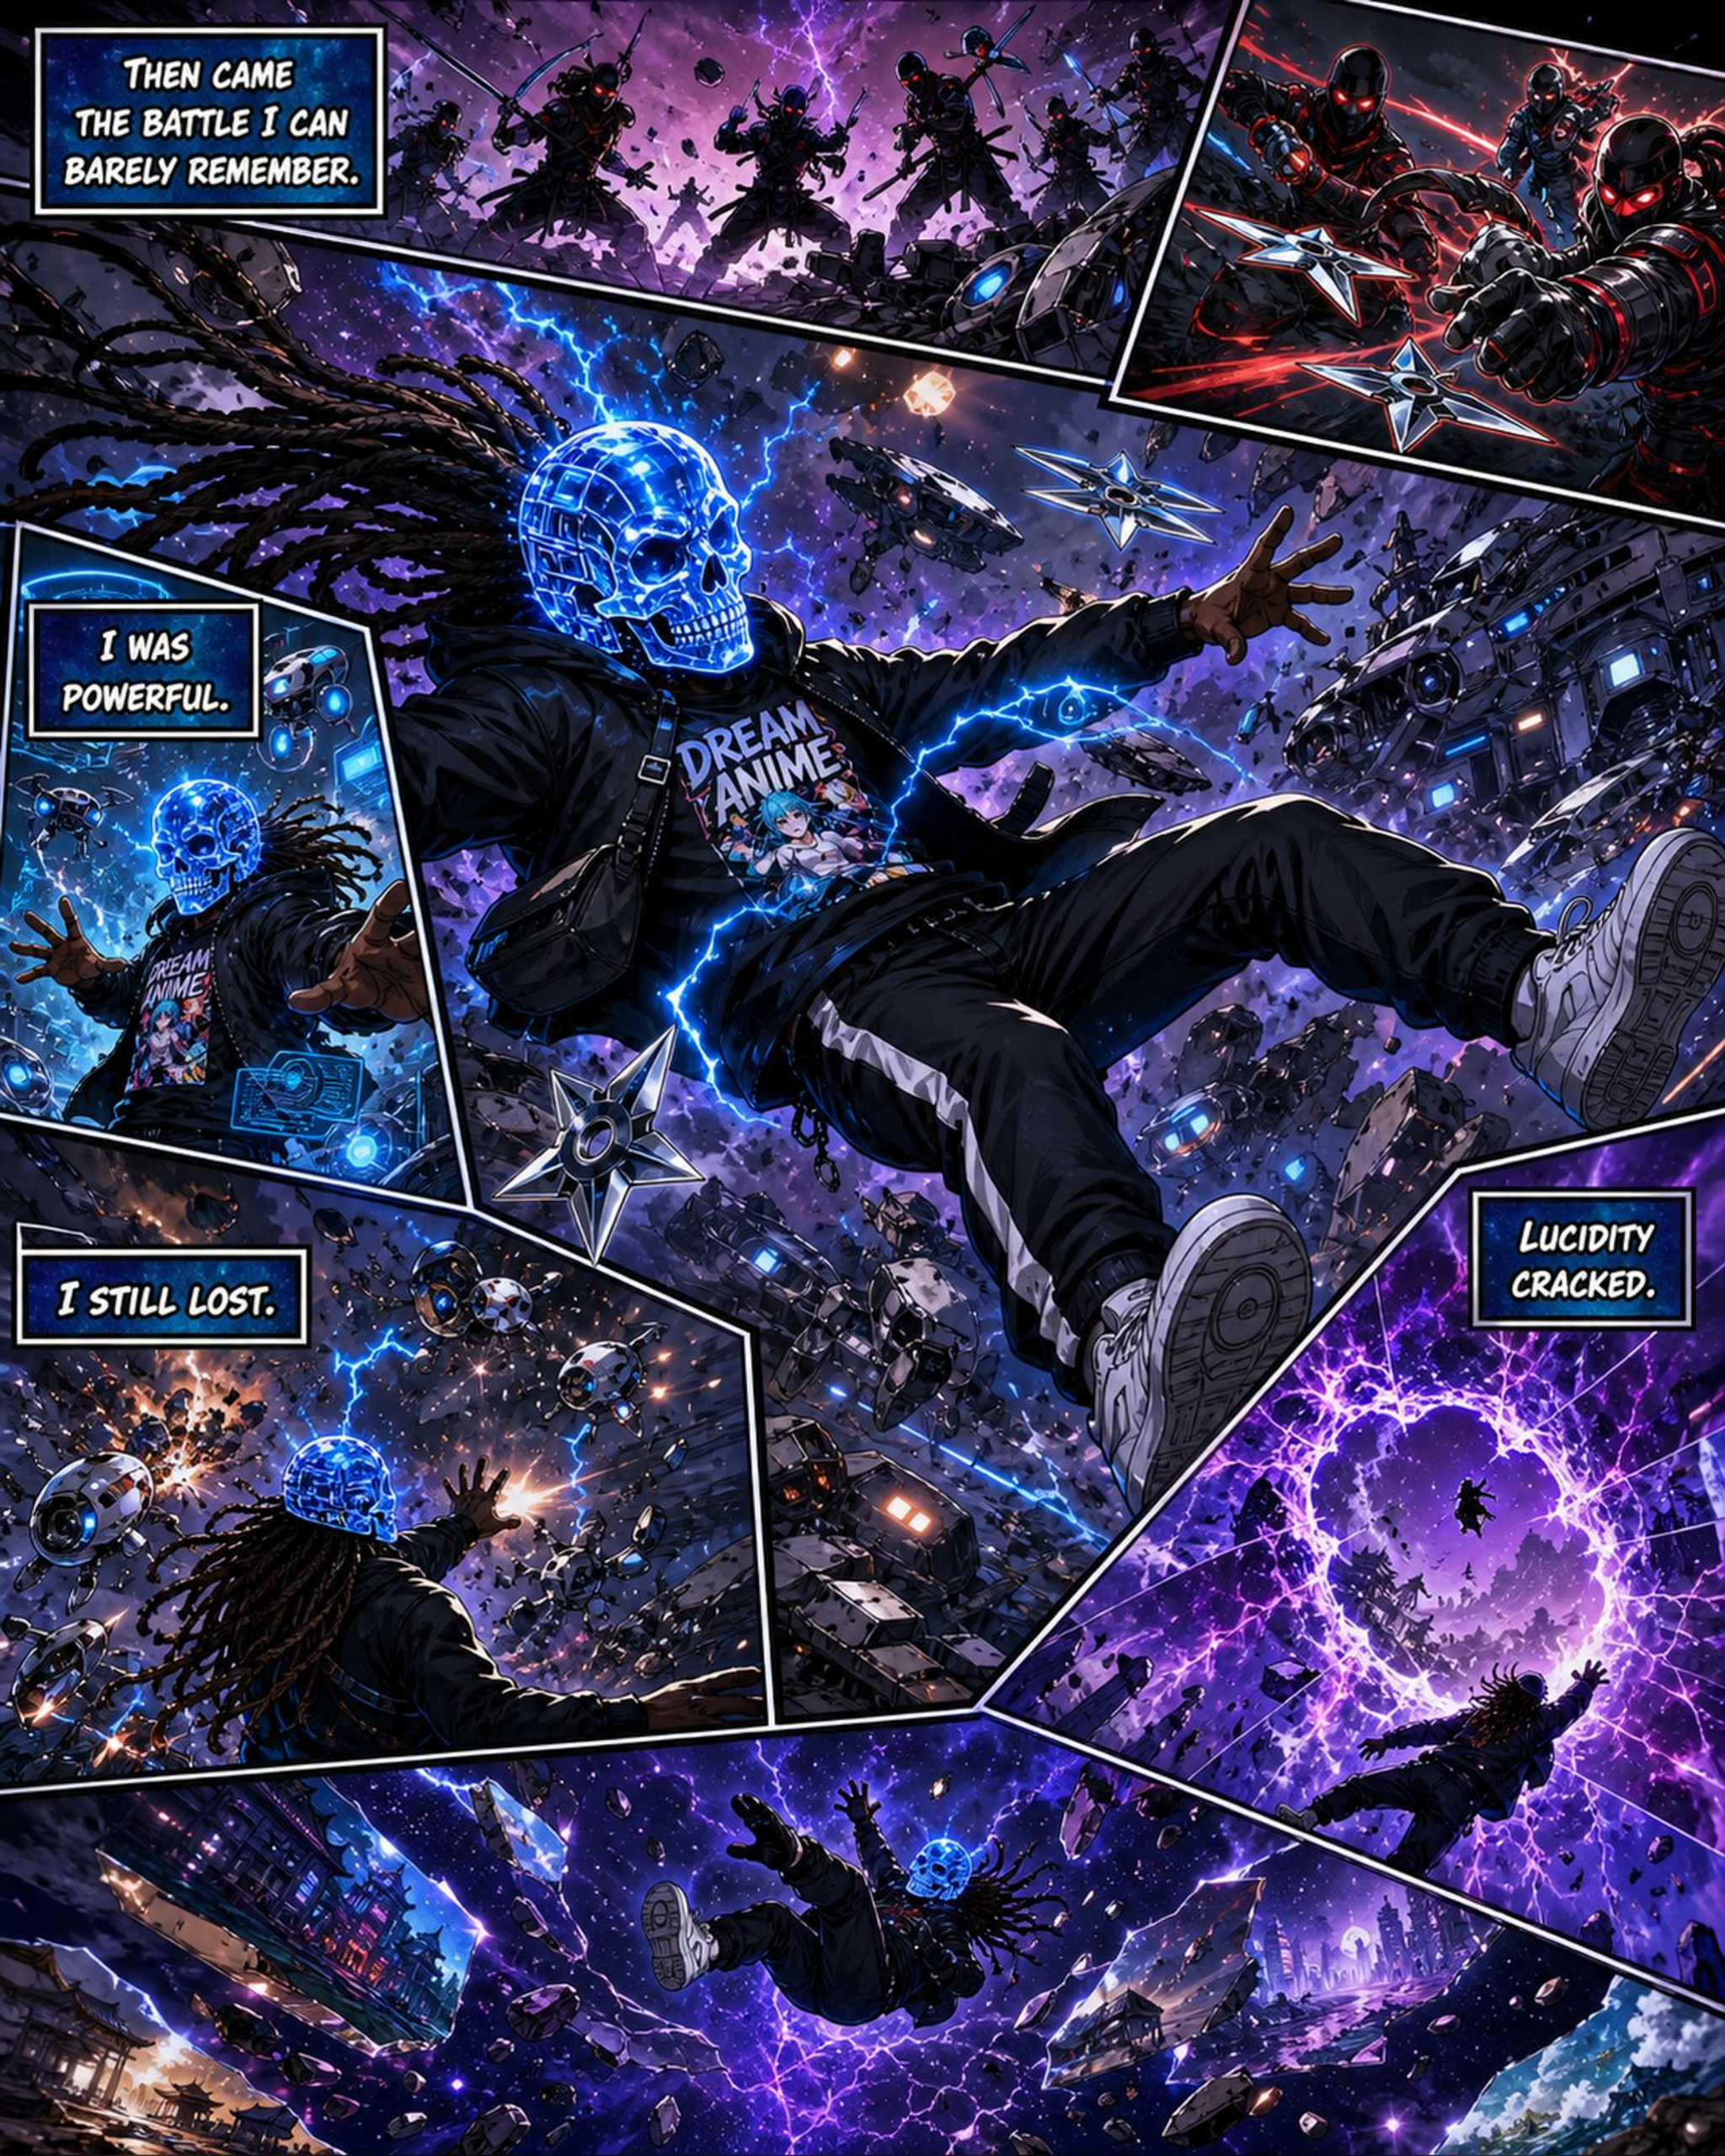

THEN CAME
THE BATTLE I CAN
BARELY REMEMBER.

I WAS
POWERFUL.

I STILL LOST.

LUCIDITY
CRACKED.

I fell into a zone
with almost no power.

My guild had
one assassin left.

Me.

They had
everyone else.

The ambush hit
while I tried to save
a friend.

One attacker
got too close.

One hostage taker
stayed too far.

Fists handled
the first.

One lucky shuriken
saved the second.

Dream logic
paid strange wages.

I danced with
a squirrel-dog
for money.

The next zone
offered retirement.

Then the helmet
woke up again.

My mind moved
through drones
across the world.

I could go
anywhere.

I could do
anything.

Then the 4:30 AM
alarm took it back.
